MAY NEED MARTIAL LAW

Washington, D. C., July 28.—A technical state of martial law threatened the nation's capitol today as the government went forward with definite plans to oust the bonus army from the city. The plan of the national commander, Walter W. Waters, of the marchers, to evacuate his men from their present centrally located camp into Camp Bartlett, nearly five miles from downtown Washington, eased the tense situation somewhat but by no means solved the problem of moving the marchers out of the District of Columbia, and the government was today virtually committed to a program embodying the latter move.

SEE RELIEF IN TAXES

Harrisburg, July 28.—Pennsylvania Assembly today reluctantly faced the grim realization that in new taxes lay the only practical road to substantial relief.

Four times success and final adjournment appeared eminent and four times the anticipation was dissipated. The outlook today pointed to an extension of the special session for an indefinite period.

The Senate, working alone, was to wind up the fifth week today. Only a complete reversal of form and alignment for proposed tax bills will enable adjournment next week.

WHIRL-WIND TRIP FOR SERUM

Trenton, N. J.—Hospital attaches here recounted today the whirl-wind trip of Chief of Police Albert Cooper of Morrisville who made a round trip from Trenton to Philadelphia in 70 minutes, delivering a vial of serum to a patient in McKinley Hospital. Mrs. Catherine Huse, Morrisville, was in a serious condition following an operation. Her physician notified Chief Cooper it was necessary to obtain serum immediately. He jumped on his motorcycle and dashed through traffic and speeded to Hahnemann Hospital, Philadelphia. Meanwhile, Mrs. Huse's physician had notified the Philadelphia hospital and a policeman started for Trenton, but Chief Cooper reached Philadelphia and returned before the Philadelphia policeman arrived here.

Other expenses under the item of maintenance were \$89 for repairs for the heating and lighting of the building and \$35.62 for the repairs to the furniture.

**Twelve-Year-Old Girl
Robbed Picking Berries**

A twelve-year-old girl was robbed of a wrist watch by a tramp, as she was picking berries in a field in Hilltown township, Tuesday afternoon. The man stepped out of a woods, grabbed the child roughly by the arm, stripped off the watch, and fled, without speaking, or making any attempt to harm his victim.

A manhunt of farmers, armed with sticks, and other improvised weapons, failed to disclose the robber's whereabouts.

The robbery took place on the farm of J. R. Straway, on the Nasse's Corner-Chalfont road. The victim was Kathryn Bond, Straway's young niece, who lives in Brooklyn, and who is paying her uncle a visit.

The child was wearing a gold wrist watch, valued at about \$25, and owned by Miss Pauline Scheidel, who had loaned it to her to wear about the farm.

'ACCUSE TRIO OF DAMAGE DONE AT FIRE HOUSE

Glass, Chairs, Ladders and
Shower Bath Are
Broken

\$200 WORTH OF DAMAGE

Three well known young men fell into the clutches of the police early yesterday morning and are now under \$500 bail each for court charged with malicious mischief and forcible entry.

Those under arrest are:

James S. Fine, 30, 255 Wood street, William Highland, 24, 120 Walnut street.

Edward J. McGinnis, 31, 204 Buckley street.

The trio are alleged to have broken into the station of Bristol Fire Company No. 1 and played havoc with the interior and some of the furnishings.

A large plate glass in a door was broken, costing about \$15, four chairs were broken, a step ladder and the shower bath were wrecked.

The young men were given a hearing yesterday afternoon before Justice of Peace Edward Lynn.

Officer Spezzano testified that he had encountered the three at Market and Cedar streets at 12:30 yesterday morning. He ordered the three to disburse and "they only moved from corner to corner," said the officer. "Then I saw all three go into No. 1 fire house and I thought they were going in there to sleep."

Later the police got a call and Spezzano went to the fire station and arrested Highland and McGinnis. Fine was later found at Market and Pond streets.

Chief Jones testified that he viewed the damage done at the fire house and that all three of the prisoners admitted being there.

Robert Clark, Sr., stated that he and his wife were aroused by the noise over at the fire house and that they had seen four men enter. He later saw four men come out but could identify only McGinnis.

None of the prisoners could remember being in the fire station or anything about doing any damage.

Chief Jones testified that none of the three were members of Bristol Fire Company No. 1. "None of them have keys and I am informed they were suspended from membership a long time ago."

Justice Lynn gave the men a severe lecture and said that such actions must cease. "I'm going to give you all a chance to get bail and hold you in \$500 bail for court."

"You've got good sense if you will but use it and stop this rowdiness."

About 50 men attended the hearing.

BAKE SALE

GOT ROLLING PIN

By "The Stroller"
Tuesday night before the St. Ann's-Independents game, one of the rabid fans of the Twilight League presented a rolling pin to the umpire, "Eddie" Roe, and told him to use it for protection if necessary.

It seems that the last time that these clubs met rivalry was so intense that the battle almost ended in a free-for-all but Tuesday fray was finished without the slightest indication of an argument.

Daring Gang Bombings Occur in Atlantic City

ATLANTIC CITY, N. J., July 28.—(INS)—Scores of lives were endangered, several stores were set afire and the downtown business section was shaken early today in one of the most daring gang bombings in post-prohibition racket history.

The entire business section in the neighborhood of Florida, Georgia, Atlantic and Pacific avenues, was shaken by the blasts. As the automobiles exploded, one after another, terror reigned among nearby residents.

MOLDS IN EDUCATION

It seemed almost inevitable, with mounting criticisms of the educational system and the still more rapidly accumulating theories of how it ought to be remade, that sooner or later there would come a cry to "stop educating our children."

The sooner all realize that education—that is, an organized system for arranging a child's environment according to a certain preconceived pattern—will not add to the happiness of the world nor, in most cases, of the child, the better for all.

Education is merely another expression of intellectual life—like philosophical argument or the writing of plays—but the public insists on regarding it with all the solemnity of an institution and being outrageously disappointed when it does not produce all the perfect results which it demands that institutions show and that, incidentally, none of them ever do. The effects of institutionalism on college athletics have greatly debated; but the danger of a similar institutionalism in college classrooms seems to have been overlooked.

Amateurism is demanded of scholastic and collegiate athletics, but the public seems incapable of that attitude toward education. It demands that education bring results—spiritually or politically or in addition to human happiness. On this score people show marked inconsistency. If the college graduate spurns the overalls, education has ruined him, and, if he dons the overalls, his education did him no good.

No one has yet invented that which will remake the world. Not even the modern educational system is such an invention. But that system would come nearer remaking the world if institutions of higher learning were content with being sources of ideas for seekers after ideas. Education is the opposite of shaping all minds to fit one mold.

THRILLS IN SPEED

Flying thrills have nothing to do with speed. Except at dangerously low altitudes, the flier has no sense of speed for there is nothing by which he can estimate his rate of travel. The novice is disappointed with his first flight because of the total lack of this sensation of speed. Gar Wood, the speed boat enthusiast, after flying 205 miles an hour spoke of the more thrilling experience of only half that fast on water. As far as speed is concerned the first speedboat ride at 35 miles an hour is more thrilling than the first airplane ride at three times that speed.

Thrills do not always increase in direct proportion to the rate of speed. There is less of a thrill in motoring a mile a minute today than there was burning up the old dirt roads at 15 per in the first horseless buggies.

GET RID OF INDIGESTION IN A FEW MINUTES, OR

Get Your Money Back

"Bismarck" and milk of magnesia only make your indigestion worse in most cases, for they weaken the digestive acid in your stomach, so it cannot digest your food properly. Pepto-Bismol does not upset your stomach. It relieves indigestion gently in a few minutes by stopping the souring of food in your stomach and the decay of food in your bowels. The medicines in Pepto-Bismol which stop souring and decay, are four of the finest medicines known to physicians. Read them on the bottle. Also, Pepto-Bismol is not a patent medicine. It is a prescription by The Norwich Pharmaceutical Company, whose ingenuous and ethical medicines have held the respect of physicians, surgeons, hospitals, nurses and druggists for nearly 50 years. If Pepto-Bismol does not get rid of your indigestion, distress after eating, heartburn and sour, acid stomach, in a few minutes, get your money back from your druggist. Delicious Pepto-Bismol is harmless. Price 50c. But don't be absent-minded and merely ask your druggist for "something for indigestion." Ask him for Pepto-Bismol by name. Look for the name Pepto-Bismol on the bottle. Refuse the unfair offer of "something just as good," which may hinder, instead of help your digestion. Ask for Pepto-Bismol by name and get what you ask for.
